

SIERRA MADRE NEWS

VOL. VI.

SIERRA MADRE, LOS ANGELES COUNTY, CALIFORNIA, FRIDAY, SEPTEMBER 24, 1914

NO. 52

EQUIPMENT IS NEEDED BY SCHOOL

Special election to pass upon the \$20,000 bond issue for the Sierra Madre school district will be held on Wednesday, October 14. At that time it is probable that a large vote will be polled and the bonds given a rousing majority. The Sierra Madre district includes the Hastings ranch and Villa sections and prominent Villa citizens have promised to bring over a big bunch of voters who will be unanimous for the bonds.

Voters should bear in mind that the proposed \$20,000 issue is not asked in addition to the \$12,500 issue which was voted some time ago. It will take the place of that issue because that was declared invalid on the ground of a typographical error in the printed notice of election. When bids were received on the improvements which the school trustees had planned to provide out of the proceeds of the other bond issue, it was found that at least \$20,000 would be required. Consequently when it was found necessary to call a new bond election the amount asked for was merely increased to that amount.

The News had planned to give figures showing just what effect on the school tax rate the proposed bond issue would have, but has been unable to secure just the data desired. It will be given in an early issue. It should be kept in mind, however, that the burden will not be borne by the property located in the corporate limits of Sierra Madre but will be shared by the Hastings ranch and the Villa section. That will tend to bring down the amount necessary to be levied for interest and retirement of bonds.

There was no organized support of the bond issue at the previous election and the \$12,500 issue was indorsed by a vote of 133 to 33. With some concerted effort to push the matter it is probable that the proposed issue would be given even better than the four-to-one vote at the previous election.

Statement of Trustees

The following statement received from Chairman Pierce of the school board explains the present situation and some of the plans of the trustees regarding the bond issue:

When bids for the construction of the several new buildings and improvements were received the school trustees were greatly surprised and disappointed to find them much higher than they had been let to expect. While the domestic science, kindergarten and sloyd buildings and sanitary plumbing could have been completed and some balance left out of the \$12,500 issue, there would not have been enough for erection of the assembly room and gymnasium. It was decided to let the latter go until some future time.

When entirely new bond proceedings were found necessary by reason of the printer's error in the notice of the election it was thought best to ask for enough to complete all the work at the present time, with certain changes in the original plans. Consequently, the amount was fixed at \$20,000.

If the bonds are voted and the plans of the board are carried out we will have one of the best equipped elementary schools in the country. The new departments are housed in temporary quarters and the new buildings are necessary to house them so that the school's efficiency can be kept on a level with that of neighboring towns.

It is the plan of the trustees that the assembly room and gymnasium shall be of use to the public as well as for strictly school purposes. The California school law is designed to make the public school plant more or less of a social center and the proposed improvements would be of great advantage for such purposes.

Sierra Madre's school taxes are low because of the fact that we do not have to support a high school. If the movement started four or five years ago toward organizing a high school had succeeded we would have been burdened with the cost of a new building and with several thousand dollars a year for operation, from all of which we are now free. Even with this new issue our bonded indebtedness will be much less according to assessed valuation than most of the districts in the county.

F. & F. DANCE

Members of the Feed & Fun Club are planning a dance to be held in the club house on Friday evening, October 9. It will be one of the first public social affairs of the season and will probably attract a good crowd as the F. & F. affairs have always been successful in providing a good time. Orchestra music will be provided and further announcements will be made later.

Mr. and Mrs. J. A. Heaston of Mari-posa avenue left on Thursday for Oregon, making this trip in their automobile. They will camp at different resorts on the way, making the trip leisurely.

FOR THE LITTLE ONES

Public Kindergarten Will Open Next Monday at the Club House

Opening of the first public kindergarten in Sierra Madre is announced for next Monday by the trustees of the school district. The trustees feel that they have been fortunate in securing Miss Frances E. Newton to organize the school and teach for the coming year. Miss Newton is a graduate of the Chicago Kindergarten Training School and a teacher of wide experience. She has been principal of two kindergarten training schools as well as kindergarten supervisor in two large cities.

Children who will be four and one-half years old before February 1, 1915, and who are not over 6, will be eligible. As Miss Newton will have no assistance but one class can be admitted during the school year. The trustees have made arrangements to transport all kindergarten pupils to and from school if parents so desire.

LONG AUTO JOURNEY

Mr. and Mrs. C. W. Jones and daughter Virginia and Mrs. Jones' mother, Mrs. Holland, returned Wednesday from a 1,500 mile auto trip covering a period of three weeks. They went as far north as Berkeley and with the exception of a week spent at Pacific Grove were on the road practically all the time. Some time was spent enjoying the scenery in the Santa Cruz mountains and about San Francisco bay. The exposition buildings at San Francisco Mr. Jones reports as far enough along toward completion to make a wonderfully impressive showing. The exterior finish is practically completed and the color scheme gives a novel and very beautiful effect, the setting being all that could be desired from the scenic standpoint. Mr. Jones did not have a particle of trouble with his Hudson, bringing home the same good Sierra Madre air in the tires with which he started out.

ARCADIA VOTES BONDS

By a vote of more than three to one the city of Arcadia authorized bond issues amounting to \$281,250 at an election on Tuesday. Two issues were voted, \$150,000 for street improvements and \$131,250 for a water system. The vote was 169 to 45 on the street bonds and 171 to 48 on the water bonds. The two issues make a total of about \$109,000 more than the bonded indebtedness of the city of Sierra Madre.

BASEBALL MERRYGOROUND

By a score of 17 to 3 the Sierra Madre baseball team defeated the Wilde & Caldwell team from Los Angeles on Sunday. The next game will be with the Lavins of Los Angeles and some new faces are promised in the Sierra Madre lineup.

CHANGE MOVIE PROGRAM

To accommodate school children patrons "The Perils of Pauline" which have been a Wednesday evening feature at the Club House, will hereafter be given on alternate Saturday evenings. The next "Pauline" film will be given on Saturday evening, October 3. Other films will be given on Wednesday and Saturday nights as usual.

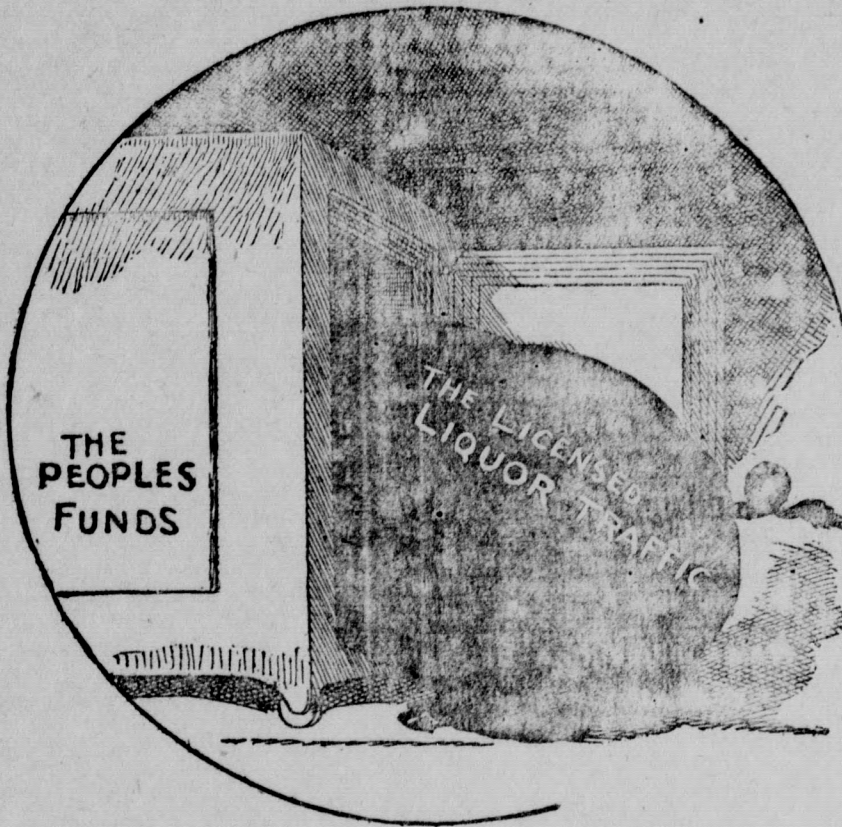

On Tuesday evening the Eleven and One Club met at the home of Mrs. Earl Mollenkopf on Auburn avenue. A very delightful evening was spent and about a dozen guests were present.

Eugene Caffey who has been spending the past year with his family in China, returned to Sierra Madre this week, and will make his home with his grandparents, Mr. and Mrs. E. N. Mead, while attending the Pasadena high school.

Cypress Court Resort has been the scene of many gay parties this summer. The guests spend the days in mountain trips and croquet games, and in the evening they gather for a social time and card parties, at the little club house. Every Saturday night the social events of the week are concluded with a dance. New guests this week at the court are Mrs. S. E. McCulloch and daughter, Miss Marian McCulloch, Mr. and Mrs. Thompson, Mrs. C. A. Odell, Mr. O. S. Wolfe, Miss Florence Beckwee, Mrs. Louis Derby and two daughters, the Misses Anna and Mabel Derby, all of Los Angeles.

Mrs. Howard Hill and Miss Hazel Hill entertained about a score of Miss Hill's college friends on Saturday, the guests including the young ladies who will assist at her wedding in October when she will be married to Mr. George E. Morgridge. The guests arrived in the morning and were served with a delicious buffet luncheon at noon. Those present included Meses, Ralph Core, Albert Utery and William Hunter, Miss Maude Speicher, Edith Myers, Albra Sparey, Alice Hogan, Edna Augur, Nina Chadwick, Gladys Boyard and Ruth Sidey of Los Angeles, Meses Cassandra Hazard and Grace Nuffer of Whittier, Mrs. Frank Collier and Mrs. Clarence Riley of South Pasadena.

THE LICENSE SYSTEM IN ACTION

The saloon gets the money; the people get the drunkenness and the taxpayers foot the bills.

MEN AND WOMEN OF NEW JERSEY

All former residents of New Jersey are cordially invited to attend a great picnic reunion in Sycamore Grove, Los Angeles, Saturday, September 26. Take Garvanza (yellow) or Annandale or South Pasadena (red) car. All day affair; basket dinner at noon. Bring your lunch, cup and spoon. Hot coffee free to all who buy badges. Brief speeches, songs, games. Main features will be the jolly social opportunity to meet old friends and make new ones. A warm welcome awaits all who ever lived in New Jersey, and the Register of addresses of former inhabitants of that state, now in California, will be open for your inspection and for you to enter your name if you desire.

Next Friday evening, October 2, the young people of the Congregational Church will open the social season with an "athletic social," to which everyone is cordially invited, especially the strangers among the young people of the community. Further notice will be given next week on the poster in the Post Office.

DR. GLADDEN AT CLAREMONT

Dr. Washington Gladden of Columbus, Ohio, will deliver two series of lectures at Pomona College from September 28 to October 9. The first series will be delivered mornings at ten o'clock and will deal with present aspects of the social problem. The other series will be delivered evenings at eight o'clock and will deal with ethical and social phases of recent literature. The coming of a man of Dr. Gladden's eminence to Pomona is something of which the college authorities may feel proud. The lectures will be free to the public.

Mrs. Lulu Landrum and daughter, Miss Eunice Landrum, who have been visiting with Mrs. Colwell at Casa de Campo, have decided to remain in Sierra Madre through the winter months. Miss Landrum is a young musician of unusual ability, having studied extensively in Eastern schools. She will appear in concert and recital work in Los Angeles during the coming season.

Prof. and Mrs. J. J. Hart were guests of Mr. and Mrs. J. G. Blumer at Santa Monica on Sunday.

WRIGHT GIVEN NOMINATION

Official count of the vote on candidates for the assembly in this district, the 69th, shows that H. W. Wright of South Pasadena was nominated on both the Democratic and Progressive tickets. His name did not appear on the Democratic ballot at the primary, but enough Democrats wrote his name in to give him the party nomination. Having no opposition in his own party Mr. Wright made no campaign even for the Progressive nomination, and Democratic nomination represents the purely voluntary action of individual voters of that party. Mr. Wright will have as an opponent H. A. Unruh of Arcadia, recently executor of the Baldwin estate and formerly "Lucky" Baldwin's right hand man, both on the ranch and the race track enterprise. Mr. Unruh has for years been a cordial hater of Sierra Madre and has fought this city repeatedly in and out of the courts. Oldtimers who are familiar with his attitude toward Sierra Madre are strenuously opposed to allowing him political preferment with Sierra Madre's help.

CONGREGATIONAL CHURCH

The sermon theme for Sunday morning at the Congregational Church will be "Why Do Not Men Turn to God?" There will be no evening sermon. Sunday school meets at 9:45 a. m. C. E. meeting at 7:00 p. m. The pastor urges remembrance of, and attendance upon, the mid-week service, on Wednesday evenings, at 7:30 o'clock.

W. H. HANNAFORD, Pastor.

THE EPISCOPAL CHURCH

Church of the Ascension, the Rev. Dr. Geo. H. Cornell rector. Vested choir. Sixteenth Sunday after Trinity. Sunday school 9:45 a. m. Morning prayer and sermon 11 a. m. A cordial invitation is extended to all.

ASCENSION GUILD

The first regular meeting of the Ascension Parish Guild after the vacation will take place at the Rectory on Friday, October 2, at 2:30 p. m. A full attendance of the members is earnestly desired and new members will be welcomed.

HOME OF TRUTH

"The Serpent Unlifted" is the subject of the discourse to be given at the Home of Truth, corner of Auburn and Carter, Sunday at 3:30. Every one cordially welcome. Harriet C. Hamor conducting services. Sunday school at 2 o'clock. All children welcome.

CONTEST IS EXCITING AT THE FINISH

Standing of Contestants and Prizes Chosen

1st—Harry Caskey, 17,000 points. Bicycle.
2nd—Harold Craig, 16,750 points. Bicycle.
3rd—Willie Olsen, 16,250 points. \$25 camera.
4th—Harold Pegler, 13,875 points. \$17.50 camera.
5th—Tommy Schwartz, 11,000 points. \$6 camera.
6th—Lucile Ladd, 8,000 points. \$3 camera.
7th—Bentham Bravinder, 2,250 points.
8th—Gustav Johanson, 750 points.

As predicted in last week's News the finish of the subscription contest was highly exciting, the leaders being even closer together than had seemed possible. As soon as the contest closed at twelve o'clock the counting was begun. Most of the contestants were on hand and stayed through to the finish, receiving their prizes at once. Fortunately, all the leaders were able to pick just the prizes they had been working for.

Nearly all of the contestants brought in bunches of votes on Saturday morning just before the close. First one then another would take the lead in the count. None of the contestants knew just how the count stood so all were in a state of breathless suspense, which was relieved only when the votes were recorded and the long columns of figures tallied.

Bentham Bravinder and Gustav Johanson who did not qualify for any of the prizes offered, were rewarded with goods from the stock of the News Printery in proportion to their scores.

The News has been asked by the contestants and parents to thank their friends for the assistance rendered in the efforts to win prizes, which is done gladly on their behalf as well as on behalf of the News.

CHILDREN'S TEETH.

When They Should Appear and the Order in Which They Come.

The milk teeth (first teeth) are twenty in number. The time at which they appear is subject to considerable variations, even under normal conditions. The following table gives the order and average time of appearance of the different teeth:

Two lower central incisors, six to nine months.

Four upper incisors, eight to twelve months.

Two lower lateral incisors and four anterior molars, twelve to fifteen months.

Four canines, eighteen to twenty-four months.

Four posterior molars, twenty-four to thirty months.

At one year of age a child should have six teeth.

At one and one-half years it should have twelve teeth.

At two years it should have sixteen teeth.

At two and one-half years it should have twenty teeth.

It is not easy to explain where there are so often variations from the average. The order in which the teeth appear is more regular than the time of their appearance. Marked irregularities in order of the appearance of the teeth are the rule in idiotic children or those suffering from slighter mental effects.

Delayed dentition is generally caused by rickets. Many healthy children, however, frequently have no teeth appear until the tenth month of age.—Philadelphia Record.

BATHING IN JAPAN.

Natives Wash Themselves Clean Before Getting Into the Tub.

Partial accounts of the luxury of a Japanese bath lead us to believe that we have something yet to learn about what is regarded by many in this country as a necessity and by more as a supererogation.—In Japan the bath is not only a necessity, but a delightful recreation.

The Japanese have a way of their own of taking a bath. They have a system that in some respects resembles that enforced at swimming pools in this country. You must first wash the body thoroughly, and then you enter the tub, the water of which is heated by an individual system. There, if you are in a public bathhouse, you may smoke and doze and chat with your friends in a dissipation that is said to be exceedingly refreshing. The water is kept hot, perhaps increases in heat, and when you leave the tub it is still regarded as fit for the next customer. In a private house the master and mistress may have their baths first, and the same water serves for the invigoration and diversion of the servants. The ignorant foreigner, who goes into the Japanese tub for the purpose of cleansing his body and with soap spoils the water for further use, is not only guilty of a social error, but entails a hardship on the household, including the servants.—Rochester Democrat.

Our Fashion Show

Stationery fashions in the acme of good taste are shown at The News Printery this week. On display are the writing papers received from the Samuel Ward Manufacturing Company of Boston, shipped on the "Missourian," first steamer to bring a cargo westbound through the Panama Canal.

In selecting the Ward papers for leaders we used to our best ability the judgment gained through many years' study of paper. We believe they represent absolutely the best values to be obtained for the prices asked, which are astonishingly moderate.

We buy Ward papers direct from the manufacturers at the same prices a wholesaler would pay. You are thus saved one profit.

"Ward's Six-fifty-two" is the equal of any writing paper made by anybody at any price. We have it in a great variety of packages, including correspondence cards. Single quire packages of paper and envelopes in note size at 50 cents, and other packages in proportion.

"Wardwove" is a wonder in moderate priced paper. Packages of one quire paper and envelopes to match at 35 cents are of a quality usually sold at 50 cents. Put up in many styles, including pound paper at 40 cents and envelopes to match at 15 cents a bunch.

Papetries and correspondence cards come in many beautiful tints and sell at 30 to 50 cents. Especially would we call attention to the "Arts and Crafts" linen, a handsome tan color at specially low prices, in all styles including pound paper.

latter part of the week from a visit
to Santa Barbara and Long Beach.

Mrs. A. N. Carter returned home yes-
terday after spending a fortnight with
her husband at the Pine Flats ranger's
N. and Mrs. William Seward are the week
end guests of Mr. and Mrs. Dwight
Hollister.

Miss Lenore Morgan arrived last
week from her home in Cleveland, O.,
to visit former friends and neighbors
in Sierra Madre.

Miss Portia Ulrich returned home
Saturday night after spending a month
in Santa Barbara as the guest of her
uncle, Dr. Barry.

Dr. and Mrs. J. M. Lee of North
Baldwin avenue have returned from
Ocean Park where they have been
spending the summer.

Miss Lottie Humphries returned Sat-
urday night from the northern part
of the state, where she has spent six
months visiting friends.

Mr. and Mrs. S. R. G. Twycross motored
to San Fernando on Thursday,
where they were dinner guests of John
Wellman and his mother.

Mr. and Mrs. Paul Baugh and Miss
Hilda Humphries spent the week end
at the home of their parents, Mr. and
Mrs. George Humphries.

Mr. and Mrs. George Humphries and
Miss Lottie Humphries were dinner
guests of Mr. and Mrs. J. G. Blumer at
Santa Monica on Wednesday.

Arthur Johnson, Jr., returned from
Pine Flats early in the week after
spending a delightful week in camp
with A. N. Carter and C. E. Gray.

Samuel Graham has returned from
Louisiana where he has spent his va-
cation with his father and sister. He
will re-enter the Pasadena high school.

night from his summer home among
the mountains of Idaho, and will take
up his residence here for the winter
in his pretty home on Alegria street.

On Monday afternoon Miss Hazel
Hill entertained members of the Mod-
ern Priscillas very delightfully at her
home on Montecito avenue, with an in-
formal tea. The guests brought their
needle work, and during the afternoon
enjoyed viewing the pretty gifts which
the bride-to-be will use in her new
home. About twenty were present.

Miss Katherine Mason entertained
with a pretty military luncheon on
Monday at her home on West Central
avenue. The affair was given in honor
of some of her Bishop's school friends.

Covers were laid for ten, and the table
decorations carried out the military
idea, red, white and blue flags being
used. The dainty ices were in the form
of miniature soldiers, and the cakes
represented the American flag.

Mr. and Mrs. Marcus Copps gave a
New England dinner Tuesday evening
at which many phases of New Eng-
land life were recalled. Rev. and Mrs.
W. H. Stubbins, Mr. and Mrs. Allen T.
Gay, Mr. and Mrs. J. C. Dickson, Miss
Etta Dickson and Miss Rena Hathorn
were guests.

Guests of Mr. and Mrs. Henry T.
Fennel at their pretty home on Scenic
Point on Sunday were Mr. and Mrs.

THE FATHERLAND.

WHERE is the true man's
fatherland?
Is it where he by chance
is born?
Doth not the yearning
spirit scorn
In such scant borders to be spanned?
Oh, yes; his fatherland must be
As the blue heaven, wide and free!

Is it alone where freedom is—
Where God is God and man is man?
Doth he not claim a broader
space
For the soul's love of home than
this?
Oh, yes; his fatherland must be
As the blue heaven, wide and free!

Where'er a human heart doth wear
Joy's myrtle wreath or sorrow's
gryves
Where'er a human spirit strives
After a life more true and fair,
There is the true man's birthplace
grand;
His is the worldwide fatherland

Where'er a single slave doth pine,
Where'er one man may help an-
other—
Thank God for such a birthright,
brother—
That spot of earth is thine and
mine
There is the true man's birthplace
grand;
His is the worldwide fatherland

The panther may crouch
In the leaves on his limb,
May scream and may scream—
It is nothing to him.

Prone, bearded and breasted
Like columns of stone,
And tall as a pine—
As a pine overthrown.

His campfires gone,
What else can be done
Than let him sleep on

Aye, tombless. What of it?
Marble is dust,
Cold and repellent,
And iron is rust.

A Wonderful Drummer.
Probably the most remarkable drummer who ever lived was Jean Henri, the famous tambour major of the Emperor Napoleon. One of his feats was to play on fifteen different toned drums at the same time in so soft and harmonious a manner that instead of the deafening uproar that might have been expected the effect was that of a novel and complete instrument. In playing he passed from one drum to the other with such wonderful quickness that the eyes of the spectators could hardly follow the movement of his hands and body.

Mansfield's Humor.
Richard Mansfield's humor was often misapprehended for conceit. One night the company was playing under a tin roof upon which a sudden downpour of rain caused a terrific clatter. This startled Mansfield into exclaiming: "What's that noise?" "Rain, sir," was the answer. "Tell it to stop!" ordered the actor fiercely.—New York Globe.

She Was Prepared.
"I trust, Miss Tappit," said the benevolent employer to his stenographer, "that you have something in reserve for a rainy day."
"Yes, sir," said the earnest young woman. "I am going to marry a man named Mackintosh."

Perfectly Plausible.
Cautious Customer—But if he's a young horse, why do his legs bend so? Dealer—Ah, sir, the poor animal has been living in a stable too low for him, and he's had to stoop.—Exchange.

Pa's Solution.
"Oh, papa," called Willie excitedly, "there's a big black bug on the ceiling."
"All right, son," said the professor, busy with his essay, "step on it and don't bother me."

We rise in glory as we sink in pride.

IN THE WORLD OF SPORT

Art Fletcher. Giants' Short-stop. Going Great Guns.

Photo by American Press Association.

Arthur Fletcher, who plays the short field for McGraw's Giants, is rapidly taking Hans Wagner's place as the leading man in his position in the National league. Several years ago McGraw was severely criticised for keeping Fletcher in the game, but he persevered, and the result has certainly justified the means. Art is credited with the greatest pair of hands in the game, and once he gets them on the ball it's all over.

Lacrosse is Exciting Game.

What is the matter with lacrosse? It is speedy and exciting from the spectators' viewpoint, and it is not difficult to gain a knowledge of the fine points of the game. Critics of the sport have alleged that it is brutal; but, while minor injuries are more or less frequent, the record of lacrosse in regard to serious accidents and fatalities is much cleaner than that of baseball, boxing, football or almost any other strenuous sport. Professionalism is charged by some Canadian critics with responsibility for the decline of the game, but baseball, soccer, hockey and other sports have survived and flourished under a professional regime. The facts of the matter seem to be that lacrosse has everything a game should have to enlist popular support except publicity. If the newspapers took up lacrosse it would soon become popular.

Braves' Poor Percentage Explained.

The mystery of the poor percentage so far achieved by the Boston Braves has been explained at last. Most of the critics had expected that club with Stallings for teacher and Evers for agitator to accomplish wonders and cannot understand why it has fallen down. It's easily understood, however, according to Lee Magee of St. Louis. "Everybody expected to see a lot of inside ball displayed by that club," says Magee. "Well, the inside ball is there all right, but it's so far inside that they can't get it out in time."

Dave Robertson a Veteran.

Dave Robertson, the outfield find of the season, who is hitting like a fiend for the New York Giants at present, is not as many fans suppose, a meteoric arrival in the baseball firmament, but has been nursed along for the past three years by McGraw. Dave was first picked up by the Giants as a pitcher, but a football accident in college spoiled his pitching wing, and McGraw had to make him over into a fielder. Robertson was the swatting sensation of the Southern association last year.

Mack Has Indian Battery.

Connie Mack has an Indian battery in the incubator. If he ever gets to spring it he will have a battery unique in the majors, as the Indians are brothers. Connie's young redskins are John and Joe Graves. Joe, eighteen, is a pitcher; John, twenty, is a catcher. They are fellow tribesmen of Chief Bender. The Graves brothers played ball on the reservation and later at Flundrau school. Joe attracted Mack's attention while pitching for Brainerd, Minn., where Joe Bush got his start.

Smith's Boat Tops Record.

The closing day's racing of the seventh annual Mississippi Valley association saw Baby Speed Demon, owned by A. C. Smith of Algonac, Mich., equal and outdo the American records set up by Kitty Hawk VI, owned by H. H. Timken, Canton, O. The four miles, two up and two down stream, were traveled at an average speed of 53.54 miles an hour. Her best lap averaged 54.54 miles an hour.

Say Moha Stalled.

Boxing commission of Montana taken action regarding boxers who fight in bouts. The commission held receipts of the recent Dillon fight on the ground that Moha was his best. It is hard to be so sure. Bob would be guilty of degrading to "stall," for in near-fights he has worked hard.

DRY SUCCESS IN WEST VIRGINIA

Drunkenness Only One-Third
What It Was Under the
License Policy.

The dry policy became effective in West Virginia on July 1, the constitutional amendment having been ratified by the people by a vote of about three to one. The initial success of the new regime has been beyond the expectations of its friends.

Success in Wheeling.
The largest city of the state, Wheeling, even with its closeness to liquor on the Ohio side, the dry regime has demonstrated its value under trying circumstances. The arrests, as compiled by the police department for a period of two months, speak for themselves:

Wheeling—	1913	1914
Total Arrests—July	372	108
Total Drunks—July	78	15
Total Arrests—August	236	204
Total Drunks—August	109	42

Total Drunks, 2 months. 182 57
An examination of the statistics discloses that prohibition in two months has cut down drunkenness about 69 per cent, or over two-thirds. Incidentally it might be added that crime reduction has been great and the apparent large number of arrests in August was due to the periodical raid of the police department upon the "red light" to squeeze out the city's share of the girls' profits.

Charleston's Record.

Charleston, the capital of the state, has also made a record endorsing the value of prohibition. Statistics on file in the Advance office and gleaned for our files from police records, give the following facts:

Charleston—	1913	1914
Total Arrests—July	257	102
Total Drunks—July	108	29
Total Arrests—August	336	181
Total Drunks—August	120	47

Total Drunks, 2 months.

Prohibition in Charleston in two months has cut arrests for drunkenness down to almost one-third. No wonder the liquor men howl.

Success in Parkersburg.

In the city of Parkersburg in July there were 13 drunks arrested and in August there were 17, or a total of 30, whereas in July of 1913 there were 28 drunks alone. Statistics from other cities show that the working of the dry law is equally as satisfactory.

Business Viewpoint.

Prohibition from the business viewpoint in West Virginia is just as satisfactory as from the crime standpoint. Business has prospered in the state under the most trying of circumstances—produced by the European war depression, closing down of mills for long periods and strikes of coal miners in Ohio that began five months ago. In Wheeling, from Eleventh street to the Creek, in a span of seven squares on Market street, where two months ago were twenty-three saloons are now found prosperous dry goods stores, restaurants, drug stores, shoe stores, carpet stores and handsomely fitted up shoe parlors and there is ONLY ONE SALOON BUILDING IN ALL THE STRETCH THAT IS NOT OCCUPIED.

The dilapidated condition of the building makes it almost untenable and the saloon that was in it was closed up by the constable before the state went dry. The site of one saloon is being replaced by a handsome new bank building.

New Buildings Constructed.

Since West Virginia went dry, Wheeling has witnessed the starting of construction of the following buildings:

Two banks—one to be seven stories high.

Department store to be six stories high.

Wholesale grocery to be seven stories high.

In addition, thousands of dollars have been expended in remodeling other stores and buildings in Wheeling to fit them for larger business activities. The Hub is completing a new four story addition. In other directions there has been building activity and hundreds of thousands of dollars worth of building activity is under way that was started just before prohibition became effective.

Former Brewery Now Packing House.

Another important result of prohibition is the expenditure of \$150,000 by the Reymann interests to convert their former brewery into a model meat packing plant. It will be ready for occupancy in a few weeks.

Following the example of the Reymann's, the brewery of the West Virginia Brewing company at Huntington is to be transformed into a big meat packing house.

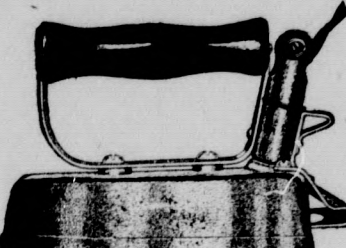

Prohibition has meant much for West Virginia, and the people of the state are just beginning to see the great possibilities that await a saloonless state.

BELATED RECOGNITION.

Plaint of a Woman Who Was Shadowed by a Detective.

"Acquaintance with a detective is not the good thing some people may imagine," said a young woman who has never yet been accused of being an adventuress or anything else that is supposed to get one's name on the front pages of the newspapers.

"A few months ago I was robbed of a belt that I prized very highly because it was unique and cannot be duplicated. I spent considerable money and had the assistance of a headquarters detective, but without recovering the belt.

"That was all well enough, but the other day as I was walking down Broadway I saw Mr. Detective. He saw me, too, and remembered that he had seen me somewhere, but had evidently forgotten the circumstances. He 'shadowed' me for a block; then when I turned into a store he slipped into a doorway and waited for me to come out. Again he shadowed me till I turned into my doorway.

"At that point he seemed to suddenly remember that he had known me as a client, not as a victim, for as I looked back he seemed to have a sheepish look in his face as he turned and walked rapidly away."—New York Globe.

New York's First Mayor.

The first mayor of New York, Thomas Willett, was inducted into office in June, 1665. Governor Richard Nicolls, the first English executive of the future Empire State, was responsible for the appointment of Willett, who was a wealthy merchant and trader and had a town house in New York and a country estate in Rhode Island, where his body was buried in 1674. Willett, who was a shrewd business man, governed New York honestly and well and after his first term of one year was made mayor again in 1667. The municipal government of which he was the head was composed of five aldermen, three Dutch and two English, and a sheriff, although police duties devolved largely upon the mayor, and he was police magistrate as well.—New York World.

EDITORIAL CHAT

Sierra Madre cannot afford to gain a reputation for being ungenerous with the public school. The trustees and many citizens who are familiar with the school work declare the proposed buildings and improvements are necessary if the efficiency of the school is to be maintained. The \$20,000 bond issue will not be a burden and will not make the district's bonded debt larger than that of most districts in Southern California. The bonds should receive an overwhelming indorsement.

Keep This Straight—

Some persons mistook the article in last week's News as opposed to the bonds. It was not so intended and careful reading would not warrant such a conclusion. The News objected to unjust criticism which had been unnecessarily circulated, but would not allow such a thing to obscure the main issue and affect its attitude on an important question of public policy.

The Best Laugh—

In another column may be found a letter from a good friend who is a staunch Republican. Having had my little say as to the main reason why I registered as a Progressive I'm glad to give him the privilege of setting forth the reason for the faith that it within him. His reference to my progressiveism needs correction on one point—it's the game that matters, not the name. Party labels do not worry me. I'm merely looking for the party that gives the best promise of putting into effect what is commonly referred to as the "progressive program." In another communication Mr. Ulrich expressed the opinion that my preference for the "lower case, p" predicated a return to the Republican fold. Not so, until the Republican bosses reform. The expression in that editorial does not represent and change whatever in my attitude as to things progressive and Progressive. Somehow the reference to the election of a Democratic president (by Republican votes) tickles me. Those Republicans who voted for Mr. Wilson to spite the Progressives are now doing the loudest shouting to save the country from the demerit Democratic bow wows. But many Progressives who were supposed to be victims of that spite vote have felt their respect for President Wilson growing until they would vote tomorrow to retain him in office. I'm inclined to think I would do so, not for any party consideration whatever, but because I believe it would be the best thing for the country. I believe the laugh now belongs to us.

—G. B. M.

Daguerre.

The inventor of the process of photography was Louis Daguerre, born at Cormeilles, France, in 1789. He was first employed painting scenes for the theater, and while thus at work he discovered the method of representing night and day by the illumination of a transparent canvas painted on both sides. This was in 1822, but as early as 1814 Nicéphore Niepce had made some experiments of photography on metal. In 1826 he and Daguerre became partners, but in a few years the former died, leaving Daguerre to develop the remarkable art. The French government gave the medal of the Legion of Honor to the inventor of the daguerreotype.

Drowsiness.

Drowsiness during the day, if a person has slept well the night before, is often caused by indigestion. Often this is remedied by drinking something very hot, like cocoa or coffee. The brain needs a mild stimulant. Lassitude of the body is not always an indication of illness or laziness.—Chicago News.

Crushing.

Mrs. Newbridge (with an air of triumph)—Really, I was greatly surprised to get a wedding present from the Van der Gilds. They are so exclusive, you know. Miss Jellus—Yes, but they are very charitable, I believe.

Posted Him.

He (vainly)—See that sweet little girl in pink? I was engaged to her the whole of last summer. Stranger (eagerly)—Very glad to hear it. I am the lawyer she's commissioned to sue you for breach of promise.

COMMUNICATION

Mr. Editor:

As a patron and for the sake of argument, posing as a philanthropist, I have read carefully your editorial under the caption: "Why a Progressive." You want the "game" as well as the "name." Amen! So say we all! We are like the Indian girl who strolled silently into a large store, her blanket folded close to her dark neck and black diamond eyes with their covetous gaze in quest of ribbons. "What color do you want, my good lady?" said the clerk. "Oh," she said with a far-away gaze, "I don't know—only—just so it's red!" I don't care what party so it is progressive with a small p. Now I want to give you just one reason why I am not a Progressive with a large P. In 1912 it was evident that the injection of a Progressive nominee meant the splitting of the Republican party and election of a Democratic President. And the situation seems likely to be the same in 1916. Our national issue is Tariff, therefore my ambition is to defeat the Democrats. As the major number of the residue are Republicans I say "Let the dog wag the tail."

Sable Skins.

The costliest sable is the Yakutsk (Russian) skin that runs "silvery"—that has, in other words, a number of equally distributed white or silvery hairs among the soft and silky brown ones. Such skins, of the average size of 15 by 5 inches, are worth \$750 apiece. "Topped" sables are dyed ones. They fetch \$50 a skin.
